

Dear Friends and Neighbors,

We're pleased to share that construction has officially begun on the Center-Cut area (formerly holes 5–9) this week.

Over the past two days, crews have been installing **silt fencing** in preparation for upcoming regrading. **Bluebird houses** are being carefully and temporarily removed, and later this week, sections of the cart path will be removed to allow for the installation of **temporary gravel access routes** for construction vehicles.

Construction hours are as follows:

- Monday through Friday: 7:00 AM – 6:00 PM
- Saturday (if needed): 7:00 AM – 3:00 PM
- No work will take place on Sundays or federal holidays.

Construction equipment will be parked near the restroom facility.

Please note that the **Center-Cut is now an active construction zone**. For everyone's safety, **this area and its trails are closed** until the site can be safely reopened—currently expected by Summer 2026. **Parents, it is very important that you warn your children to avoid the Center-Cut because the construction activities and changing landscape present safety hazards**. In the meantime, we encourage you to enjoy the trails around holes 1–4 or along the east shore of the lake.

With more pedestrians and pets likely to be on our roads during this time, we kindly remind everyone to **SLOW DOWN AND STAY ESPECIALLY ALERT**.

We'll continue to provide updates on an as-needed basis as the project progresses, including the timing of upcoming work on **holes 1–4**. If construction traffic affects any of the **community gates**, that information will be shared by your respective **HOA**.

If you have any questions, please don't hesitate to reach out to me or Tony.

Warm regards,

Chuck Etherington
